1. Basis of preparation, adoption of IFRS and statement of compliance

Yangarra Resources Ltd. (the "Company") is a publicly traded company involved in the production, exploration and development of resource properties in Western Canada. The address of the registered office is 1530, 715 – 5 Avenue SW, Calgary Alberta, T2P 2X6.

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiary, Yangarra Resources Corp. ("YRC"), after the elimination of intercompany transactions and balances. Certain reclassifications have been made to prior period's figures to conform to the current period's presentation

In May 2014, the Company consolidated its outstanding common shares, stock options and warrants on a 1 for 3 basis (the "Share Consolidation"). As a result, the number of outstanding common shares, stock options and warrants of comparative periods have been reduced by a factor of three, in order for the comparative common share, stock options, warrants, per share amounts and diluted per share amounts to be equivalent.

Statement of compliance and authorization

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" and using the accounting policies outlined by the Company in its annual consolidated financial statements for the year ended December 31, 2013, except as identified below. These condensed consolidated financial statements do not include all of the information required for full annual financial statements. The consolidated financial statements were authorized for issue by the Board of Directors on November 12, 2014.

2. New Accounting Standards

On January 1, 2014 the Company adopted the following new standards:

The IASB issued International Financial Reporting Interpretations Committee Interpretation ("IFRIC") 21, "Levies". The IFRIC clarifies that an entity should recognize a liability for a levy when the activity that triggers payment occurs. The adoption of this interpretation had no significant impact on the Company's consolidated financial statements.

IAS 32, "Financial Instruments: Presentation", which clarifies the requirements for offsetting financial assets and liabilities. The amendments clarify when an entity has a legally enforceable right to offset and certain other requirements that are necessary to present a net financial asset or liability. There was no impact to the Company on adoption of this standard.

3. Property and equipment

	Oil and Natural Gas Interests	*Well and plant equipment*	*Other Assets*	*Total*
Cost or Deemed Cost				
Balance at December 31, 2012	$ 125,550,753	$ 28,004,352	$ 1,299,471	$ 154,854,576

3. Property and equipment (continued)

	Oil and Natural Gas Interests	*Well and plant equipment*	*Other Assets*	*Total*
Balance at December 31, 2012	29,432,771	3,198,400	381,027	33,012,198
Depletion and depreciation	12,189,400	1,663,000	239,403	14,091,803
Balance at December 31, 2013	41,622,171	4,861,400	620,430	47,104,001
Depletion and depreciation	**11,085,600**	**1,486,500**	**152,981**	**12,725,081**
Balance at September 30, 2014	$ **52,707,771**	**$ 6,347,900**	**$ 773,411**	**$ 59,829,082**
At December 31, 2013	$ 120,772,396	$ 31,201,346	$ 997,274	$ 152,971,016
At September 30, 2014	**$ 164,527,436**	**$ 37,925,073**	**$ 842,644**	**$ 203,295,153**

The depletion, depreciation and impairment of property and equipment, and any eventual reversal thereof, are recognized in depletion and depreciation in the statement of income and comprehensive income. Future development costs of $124,786,200 are included in the depletion calculation.

During the nine months ended September 30, 2014, the Company capitalized $978,480 (2013 - $929,708) of recoveries related to the Company's working interest in operated capital expenditure programs on which overhead has been charged in accordance with standard industry operating agreements.

4. Bank debt and Subordinated Debt

As at September 30, 2014, the $50,629,602 (December 31, 2013 – $32,112,455) reported amount of bank debt with Alberta Treasury Branches ("ATB") was comprised of $17,750,000 (December 31, 2013 – $9,850,000) drawn on the revolving operating demand loan, $24,955,561 (December 31, 2013 – $19,963,177) of guaranteed notes and $7,924,041 (December 31, 2013 – $2,299,280) of outstanding cheques. The Company is subject to a financial covenant requiring an adjusted working capital ratio above 1 : 1 (current assets plus the undrawn availability under the revolving facility, divided by the current liabilities less the drawn portion of the revolving facility, excluding unrealized commodity contracts and flow-through share premium liability). The facility is secured by a general security agreement.

As at September 30, 2014, the maximum amount available under the revolving operating demand loan was $70,000,000 (December 31, 2013 – $45,000,000) at an interest rate of bank prime plus 0.75% per annum on the operating demand loan, payable monthly, or a credit spread of 2.0% on guaranteed notes. The next scheduled review is May 31, 2015. A decrease in the borrowing base could result in a reduction to the credit facility, which may require repayment to the lenders. During the period, the weighted average effective interest rate for the bank debt was approximately 4.4% (2013 – 4.9%).

4. Bank debt and Subordinated Debt (continued)

As at September 30, 2014 nil was drawn on the $20,000,000 subordinated term loan facility with Alberta Treasury Branches ("ATB"). The subordinated term loan has a two year committed term (subject to an extension for an additional year upon mutual consent). There are two tranches ($9,000,000 to be drawn on or before October 1, 2014 and $11,000,000 to be drawn on or before January 1, 2015) at an interest rate of bank prime plus 7.0% per annum, payable monthly, or a credit spread of 8.0% on guaranteed notes. Full payment of the principal is due on September 3, 2015. The first tranche was not drawn on the October 1, 2014, reducing the current availability of the subordinated term loan facility to $10,000,000.

The Company is subject to financial covenants on the subordinated term facility requiring an adjusted working capital ratio greater than 1 : 1 (calculation consistent with the calculation disclosed above) and a Debt to EBITDA ratio below 4 : 1 (debt is defined as all obligations, liabilities and indebtedness on the statement of financial position and EBITDA is defined as earnings plus interest expense and other financing costs, depletion and depreciation and income taxes). In addition the Company is required to comply with a PV-10 proved developed producing ("PDP") to debt ratio of not less than 0.92 : 1 on specified dates and a PV-10 total proved to debt ratio of not less than 1.5 : 1 on specified dates. This facility is secured with a pledge of a general demand debenture and a general security agreement.

The Company is in compliance with all covenants as at September 30, 2014.

5. Decommissioning liability

The following table presents the reconciliation of the carrying amount of the liability associated with the decommissioning of the Company's property and equipment:

		September, 2014		*December 31, 2013*
Balance, beginning of period	$	**5,497,222**	$	5,297,166
Liabilities incurred		**873,259**		871,164
Liabilities disposed		–		(31,275)
Effect of change in discount rate		**447,840**		(788,547)
Adjustments for change in assumptions		**442,412**		–
Accretion		**126,686**		148,714
Balance, end of period	$	**7,387,419**	$	5,497,222

The following significant assumptions were used to estimate the decommissioning liability:

		September 30, 2014		*December 31, 2013*
Undiscounted cash flows	$	**11,239,694**	$	8,745,195
Discount rate		**1.83% - 2.96%**		1.80% - 3.24%
Inflation rate		**2%**		2%
Weighted average expected timing of cash flows		**15 years**		15 years

6. Share capital

a. Authorized

Unlimited number of common shares, without nominal or par value
Unlimited number of preferred shares, without nominal or par value

b. Common shares issued

	Number of shares		*Amount*
Balance, December 31, 2012	40,570,574	$	94,717,629
Equity financing	4,618,457		7,481,900
CDE Flow-through financing	1,131,638		2,003,000

CEE Flow-through financing	2,585,000		5,001,975
CEE Flow-through premium liability	–		(814,275)
Share issue costs (net of $264,026 in tax)	–		(792,077)
Exercise of options	133,333		162,500
Balance, December 31, 2013	49,039,002	$	107,590,652
Equity financing *(i)*	**8,333,417**		**27,500,275**
Share issue costs (net of $407,735 in tax) *(i)*	**–**		**(1,223,203)**
Exercise of options *(ii)*	**383,335**		**539,001**
Issued on consolidation *(iii)*	**50**		**–**
Balance, September 30, 2014	**57,755,804**	**$**	**134,406,725**

i) On May 15, 2014 the Company closed a "bought deal" financing, completed by way of a short form prospectus. 8,333,417 common shares ("Common Shares") were issued at a price of $3.30 per Common Share for gross proceeds of $27,500,275.

ii) In 2014, The Company issued 383,335 common shares on the exercise of options at an average of $1.41 per share for cash proceeds of $539,001.

iii) In May 2014, the Company consolidated its outstanding common shares, stock options and warrants on a 1 for 3 basis.

7. Share-based payments

The Company has an equity settled stock option plan under which the Board of Directors may grant options to directors, officers, other employees and key consultants. The purpose of the plan is to advance the interests of the Company by encouraging these individuals to acquire shares in the Company and thereby remain associated with, and seek to maximize the value of, the Company. Under the plan, the number of shares reserved for issuance pursuant to the exercise of all options under the plan may not exceed 10% of the issued and outstanding common shares on a non-diluted basis at any time. The options expire not more than five years from the date of grant, or earlier if the individual ceases to be associated with the Company, and vest over terms determined at the time of grant.

During the nine months ended September 30, 2014, the Company granted options to purchase 1,291,677 common shares, (400,002 of the options vested immediately and 891,675 of the options will vest equally over three years with the first tranche vesting one year after the grant date). The fair value of the options was estimated at $1,683,600 ($1.32 per option) using the Black-Scholes pricing model.

7. Share-based payments (continued)

The following tables summarize information about stock options outstanding as at:

	September 30, 2014		*December 31, 2013*	
	Options	***Weighted – average exercise price***	*Options*	*Weighted – average exercise price*
Opening	**3,545,001**	**$1.59**	3,946,667	$1.77
Granted	**1,291,677**	**2.36**	846,667	0.96
Exercised	**(383,335)**	**1.41**	(133,333)	1.23
Forfeited	–	–	(988,333)	1.47
Expired	–	–	(126,667)	1.50
Issued on consolidation	**29**	–	–	–
Closing	**4,453,372**	**$1.87**	3,545,001	$1.59

The following provides a summary of the stock option plan as at September 30, 2014:

Range of exercise price	*Number outstanding*	*Weighted-average remaining contractual life (years)*	*Weighted-average exercise price*	*Number exercisable*
\$ 0.50 – \$ 1.00	543,339	3.78	\$ 0.90	543,339
\$ 1.01 – \$ 1.50	1,036,680	2.30	1.28	1,036,680
\$ 1.51 – \$ 2.00	941,670	1.90	1.81	775,003
\$ 2.01 – \$ 2.50	858,338	2.83	2.24	858,338
\$ 2.51 – \$ 3.00	1,073,345	3.87	2.67	348,337
	4,453,372	2.88	\$ 1.87	3,561,697

The Black-Scholes pricing model was used to estimate the fair value of options granted issued based on the following significant assumptions:

	2014	*2013*
Weighted average exercise price per option	**$2.49**	$0.96
Risk-free interest rate	**1.61% - 1.72%**	1.24% - 1.86%
Expected volatility	**63%**	64% - 65%
Expected life	**5 years**	5 years
Forfeiture rate	**5%**	0%
Weighted average fair value per option	**$1.32**	$0.50

8. Net income per common share

Basic earnings per share was calculated as follows:	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	**2014**	2013
Net income for the period	$ **7,967,369**	$ 11,330	$ **11,538,052**	$ 1,834,848
Weighted average number of shares (basic)				
Issued common shares at beginning of period	**57,739,087**	40,570,575	**49,039,003**	40,570,575
Stock options exercised	**7,790**	2,174	**260,623**	732
Effect of shares issued	**–**	–	**4,212,496**	–
Weighted average number of common shares - basic	**57,746,877**	40,572,749	**53,512,122**	40,571,307
Diluted earnings per share was calculated as follows:				
Weighted average number of shares (diluted)				
Weighted average number of shares (basic)	**57,746,877**	40,572,749	**53,512,122**	40,571,307
Effect of outstanding options	**1,997,991**	89,588	**1,627,887**	855
Effect of outstanding warrants	**269,998**	–	**220,283**	–
Weighted average number of common shares - diluted	**60,014,866**	40,662,337	**55,360,292**	40,572,162

The average market value of the Company's shares for purposes of calculating the dilutive effect of share options was based on quoted market prices for the period that the options were outstanding. Excluded from diluted earnings per share for the three and nine months ended September 30, 2014 is the effect of nil options (2013 – 6,740,000 options) and nil warrants (2013 – 1,420,000).

9. Change in non-cash working capital

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	**2014**	2013
Accounts receivable	$ **3,493,302**	$ (5,713,311)	$ **(4,389,149)**	$ (4,882,790)
Prepaid expenses and deposits	**(335,447)**	(231,461)	**(199,072)**	232,143
Accounts payable and accrued liabilities	**(3,210,583)**	5,276,534	**513,570**	(1,583,309)
	$ **(52,728)**	$ (668,238)	$ **(4,074,651)**	$ (6,233,956)

The changes in non-cash working capital has been allocated to the following activities

Operating	$ **(436,562)**	$ (2,694,655)	$ **(6,681,761)**	$ (1,353,133)
Financing	–	–	–	–
Investing	**383,834**	2,026,417	**2,607,110**	(4,880,823)
	$ **(52,728)**	$ (668,238)	$ **(4,074,651)**	$ (6,233,956)

10. Related party disclosure

The condensed consolidated interim financial statements include the financial statements of the Company and the subsidiary listed below:

Name	*Country of Incorporation*	*% equity interest* *2014*	*2013*
Yangarra Resources Corp.	Canada	100%	100%

Balances between the Company and its subsidiary have been eliminated on consolidation and are not disclosed in this note. Details of transactions between the Company and other related parties are disclosed below.

During the three and nine months ended September 30, 2014 and 2013, the Company was charged or invoiced the following amounts by certain of its officers and directors and by companies controlled by certain of the Company's officers and directors:

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	**2014**	2013
Administration and consulting fees	$ **112,229**	$ 88,500	$ **310,229**	$ 222,035
Production and capital expenditures	**61,047**	52,033	**89,640**	175,952
	$ **173,276**	$ 140,533	$ **399,869**	$ 397,987

Included in accounts payable and accrued liabilities at September 30, 2014 is $6,849 (2013 – $7,727) relating to the above transactions. These transactions were in the normal course of operations and were measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Other long-term liabilities include a mortgage for $300,660 (December 31, 2013 - $328,545) held in the name of an officer of the Company for a property that is used as a field office. The Company is the beneficial owner through a trust agreement of the property against which the mortgage is secured. All mortgage payments are made by the Company.

11. Financial instruments and financial risk management

The Company's financial instruments include accounts receivable, bank debt, subordinated debt, accounts payable and accrued liabilities, other long term liabilities, interest rate contracts and commodity contracts. The carrying values of accounts receivable, accounts payable and accrued liabilities, other long term liabilities and bank debt approximate their fair values due to their relatively short periods to maturity. The fair value of the subordinated debt is approximately equal to the carrying value as the debt is subject to a floating interest rate.

The Company is required to classify fair value measurements using a hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy is as follows:

- Level 1 - quoted prices in active markets for identical assets or liabilities;
- Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 - inputs for the asset or liability that are not based on observable market data.

The fair value of the interest rate contracts and the commodity contracts is classified at level 2. The fair value is calculated using the forward price curves as at September 30, 2014 for the period the contract is outstanding.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities. The Company has exposure to credit risk, liquidity risk and market risk as a result of its use of financial instruments. This note presents information about the Company's exposure to each of the above risks and the Company's objectives, policies and processes for measuring and managing these risks. Further quantitative disclosures are included throughout these financial statements. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has implemented and monitors compliance with the risk management policies as set out herein:

a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. A substantial portion of the Company's accounts receivable are with natural gas and liquids marketers and joint venture partners in the oil and gas industry and are subject to normal industry credit risks.

Purchasers of the Company's natural gas and liquids are subject to credit review to minimize the risk of non-payment. As at September 30, 2014, the maximum credit exposure is the carrying amount of the accounts receivable of $13,235,696 (December 31, 2013 – $8,846,547).

The maximum exposure to credit risk for receivables at the reporting date by type of customer was:

Oil and natural gas marketers	$	5,327,500
Joint venture partners		5,445,998
Other		2,462,198
	$	13,235,696

11. Financial instruments and financial risk management (continued)

Receivables from petroleum and natural gas marketers are typically collected on the 25th day of the month following production. The Company's policy to mitigate credit risk associated with these balances is to establish marketing relationships with large purchasers (Computershare). The Company historically has not experienced any significant collection issues with its petroleum and natural gas marketers. All of the revenue accruals and receivables from petroleum and natural gas marketers were received in October 2014.

Joint venture receivables are typically collected within one to three months of the joint venture bill being issued to the partner. The Company mitigates the risk from joint venture receivables by obtaining partner approval of capital expenditures prior to starting a project. However, the receivables are from participants in the petroleum and natural gas sector, and collection is dependent on typical industry factors such as commodity price fluctuations, escalating costs and the risk of unsuccessful drilling. Further risk exists with joint venture partners as disagreements occasionally arise which increases the potential for non-collection. For properties that are operated by the Company, production can be withheld from joint venture partners who are in default of amounts owing. In addition, the Company often has offsetting amounts payable to joint venture partners from which it can net receivable balances.

The Company did not provide for any doubtful accounts nor was it required to write-off any accounts receivable during the nine months ended September 30, 2014.

As at September 30, 2014, the Company considers its receivables to be aged as follows:

Not past due	$	8,183,097
Past due by less than 90 days		70,565
Past due by more than 90 days		4,982,034
	$	13,235,696

b. Liquidity risk

Liquidity risk is the risk that the Company will incur difficulties meeting its financial obligations as they are due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions without incurring unacceptable losses or risking harm to the Company's reputation. The Company prepares annual capital expenditure budgets, which are regularly monitored and updated as considered necessary. The Company uses authorizations for expenditures on both operated and non-operated projects to further manage capital expenditures.

To facilitate the capital expenditure program, the Company has a credit facility agreement which is regularly reviewed by the lender. The Company monitors its total debt position monthly. The Company also attempts to match its payment cycle with collection of petroleum and natural gas revenues on the 25th of each month. The Company anticipates it will have adequate liquidity to fund its financial liabilities through its future cash flows. The Company's financial liabilities are comprised of accounts payable and accrued liabilities, commodity contracts, interest rate contracts, bank debt and subordinated debt, which are classified as current or non-current on the balance based on their maturity dates.

Yangarra intends to fund the 2014 budget (which includes the $4.5 million of CEE commitments) with cash flow from operations and the availability on the revolving operating demand loan.

11. Financial instruments and financial risk management (continued)

As at September 30, 2014	Carrying Amount	Contractual Cash Flows	Less than 1 year	1-2 Years	2-5 Years	More than 5 years
A/P and accrued liabilities	15,535,029	15,535,029	15,535,029	-	-	-
Bank debt (1)	50,629,602	50,629,602	50,629,602	-	-	-
Other long-term liabilities	730,361	730,361	38,546	40,167	651,648	
Commodity contracts	3,119,904	3,119,904	2,449,681	586,847	83,377	-
Interest rate contract	352,454	352,454	104,953	93,988	153,513	-
Estimated interest payments (1)	-	1,146,479	1,146,479	-	-	-
	70,367,350	71,513,829	69,904,290	721,002	888,538	-

(1) Assumes the revolving credit facility was not renewed May 2015

c. Market risk

Market risk consists of interest rate risk, currency risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable limits, while maximizing returns. The Company may use both financial derivatives and physical delivery sales contracts to manage market risks. All such transactions are conducted in accordance with a risk management policy as set out herein:

i. Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company is exposed to interest rate fluctuations on its bank debt and subordinated debt which bears interest at a floating rate and to mitigate this risk, the Company has entered into interest rate contracts. For the nine months ended September 30, 2014, if interest rates had been 1% lower with all other variables held constant, income for the period would have been $323,777 (September 30, 2013 - $265,585) higher, due to lower interest expense. An equal and opposite impact would have occurred had interest rates been higher by the same amount.

The Company had the following interest rate contracts in place at September 30, 2014:

Contracts		**Fair Value**
Pay a floating rate to receive a 2.35% (plus a 2.50% credit spread) fixed rate on $10 million (September 2014-June 2018)	$	(211,483)
Pay a floating rate to receive a 2.15% (plus a 2.50% credit spread) fixed rate on $10 million (September 2014-May 2018)	$	(140,971)
	$	**(352,454)**

11. Financial instruments and financial risk management (continued)

ii. Currency risk

Foreign currency exchange rate risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in foreign exchange rates. All of the Company's petroleum and natural gas sales are denominated in Canadian dollars, however, the underlying market prices in Canada for petroleum and natural gas are impacted by changes in the exchange rate between the Canadian and United States dollar. The Company had no outstanding forward exchange rate contracts in place at September 30, 2014.

iii. Commodity price risk

Commodity price risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for petroleum and natural gas are impacted by world economic events that dictate the levels of supply and demand as well as the relationship between the Canadian and United States dollar, as outlined above.

As at September 30, 2014, the Company had entered into to the following commodity price risk contracts:

Contracts		
2014 Oil		
100 bbl/d from October 1 to December 31, 2014 at a fixed price of $98.30 CAD/bbl	$	(38,691)
100 bbl/d from October 1 to December 31, 2014 at a fixed price of $100.00 CAD/bbl	$	(17,998)
100 bbl/d from October 1 to December 31, 2014 at a fixed price of $91.40 CAD/bbl	$	(122,684)
100 bbl/d from October 1 to December 31, 2014 at a fixed price of $91.35 CAD/bbl	$	(123,292)
200 bbl/d from October 1 to December 31, 2014 at a fixed price of $92.00 USD/bbl	$	29,906
100 bbl/d from October 1 to December 31, 2014 at a fixed price of $90.00 USD/bbl	$	(12,358)
200 bbl/d from October 1 to December 31, 2014 at a fixed price of $93.52 CAD/bbl	$	(193,755)
100 bbl/d from October 1 to December 31, 2014 at a fixed price of $98.20 CAD/bbl	$	(39,909)
200 bbl/d from October 1 to December 31, 2014 at a fixed price of $100.00 CAD/bbl	$	(35,995)
2015 Oil		
100 bbl/d from January 1 to December 31, 2015 at a fixed price of $86.05 USD/bbl	$	(69,505)
100 bbl/d from January 1 to December 31, 2015 at a fixed price of $91.20 CDN/bbl	$	(276,857)
200 bbl/d from January 1 to December 31, 2015 at a fixed price of $90.37 CDN/bbl	$	(613,652)
100 bbl/d from January 1 to December 31, 2015 at a fixed price of $90.10 CDN/bbl	$	(633,150)
100 bbl/d from January 1 to December 31, 2015 at a fixed price of $92.25 CDN/bbl	$	(238,944)
200 bbl/d from January 1 to December 31, 2015 at a fixed price of $92.45 CDN/bbl	$	(463,446)
200 bbl/d from January 1 to December 31, 2015 at a fixed price of $100.00 CDN/bbl	$	81,774
2016 Oil		
Sold Swaption on 200 bbl/d @ $95.00 WTI/USD for January – December 2016	$	(166,753)

11. Financial instruments and financial risk management (continued)

2014 Gas		
1,000 GJ/d from October 1 to December 31, 2014 at a fixed price of $3.11/GJ	$	(112,700)
1,000 GJ/d from October 1 to December 31, 2014 at a fixed price of $3.05/GJ	$	(120,003)
1,000 GJ/d from October 1 to December 31, 2014 at a fixed price of $3.54/GJ	$	(60,357)
1,000 GJ/d from October 1 to December 31, 2014 at a fixed price of $3.54/GJ	$	(60,357)
1,000 GJ/d from October 1 to December 31, 2014 at a fixed price of $3.73/GJ	$	(37,228)
2015 Gas		
2,000 GJ/d from January 1 to December 31, 2015 at a fixed price of $4.11/GJ	$	199,899
2014 Propane		
100 bbl/d from April 1 to September 30, 2014 at a fixed price of $45.99 CDN/bbl	$	6,151
Total	**$**	**(3,119,904)**

The following table summarizes the fair value and the change in fair value for nine months ended September 30, 2014:

	Nine months ended September 30, 2014	Year ended December 31, 2013
Commodity contract (liability) asset, beginning of period	**(4,530,496)**	$ 2,398,111
Unrealized change in fair value	**1,410,592**	(6,928,607)
Commodity contract (liability) asset, end of period	**(3,119,904)**	$ (4,530,496)

The following table summarizes the sensitivity of the fair value of the Company's derivative positions as at September 30, 2014 to fluctuations in commodity prices, with all other variables held constant. When assessing the potential impact of these commodity price changes, the Company believes 10 percent volatility is a reasonable measure ($0.44/mcf for natural gas and $11/bbl for oil). Fluctuations in commodity prices potentially could have resulted in unrealized gains (losses) impacting income before tax as follows:

	Impact on Income Before Tax	
	Increase 10%	Decrease 10%
Crude oil	(5,308,520)	5,308,520
Natural Gas	(325,805)	325,805

11. Financial instruments and financial risk management (continued)

Capital disclosures

The Company's objective when managing capital is to maintain a flexible capital structure which will allow it to execute its capital expenditure program, which includes expenditures in oil and gas activities which may or may not be successful. Therefore, the Company monitors the level of risk incurred in its capital expenditures to balance the proportion of debt and equity in its capital structure.

The Company considers its capital structure to include shareholders equity and debt:

	September 30, 2014	*December 31, 2013*
Shareholders' equity	**$ 134,826,579**	$ 95,583,587
Bank debt	**$ 50,629,602**	$ 32,112,455
Subordinated debt	**$ –**	$ 7,786,632

The Company monitors capital based on annual cash from operations before changes in non-cash working capital and capital expenditure budgets, which are updated as necessary and are reviewed and periodically approved by the Board of Directors.

The Company manages its capital structure and makes adjustments by continually monitoring its business conditions including the current economic conditions, the risk characteristics of the Company's petroleum and natural gas assets, the depth of its investment opportunities, current and forecasted net debt levels, current and forecasted commodity prices and other facts that influence commodity prices and funds from operations such as quality and basis differentials, royalties, operating costs and transportation costs.

In order to maintain or adjust the capital structure, the Company considers its forecasted cash from operations before changes in non-cash working capital when attempting to finance an acceptable capital expenditure program including acquisition opportunities, the current level of bank credit available from the Company's lender, the level of bank credit that may be attainable from its lender as a result of petroleum and natural gas reserve growth, the availability of other sources of debt with different characteristics than existing debt, the sale of assets, limiting the size of the capital expenditure program and the issue of new equity if available on favorable terms. At September 30, 2014, the Company's capital structure was not subject to external restrictions. No changes have been made to the capital policy since 2013.

12. Finance Expenses

During the three and nine months ended September 30, 2014 and 2013, the following items were included in the finance expense on the Condensed Consolidated Interim Statements of Income (loss) and Comprehensive Income (loss):

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	**2014**	2013
Interest and Finance costs	**$ 429,303**	$ 375,487	**$ 1,585,320**	$ 1,245,264
Change in fair value of interest rate contracts	**(31,240)**	101,618	**309,218**	(39,887)
Accretion	**44,521**	30,977	**126,686**	108,506
	$ 442,584	$ 508,082	**$ 2,021,224**	$ 1,313,883

13. Contingency

In December 2009, the Company terminated the Standstill Agreement that it had with an industry partner regarding a joint producing property and served that industry partner with a Statement of Claim issued from The Court of Queen's Bench of Alberta, by which the Company claims breach of the agreements between the parties, gross negligence and default of the operator. The Company seeks judgment for specified and such further damages to be determined by the Court, as well as appointment as operator. The Company increased the statement of claim based on the information provided by the defendant. The potential outcome of the lawsuit and claims are undetermined, however, they could be material.

In the normal conduct of operations, there are other pending claims by and against the Company. Litigation is subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. In the opinion of management, based on the advice and information provided by its legal counsel, the final determination of these other litigations will not materially affect the Company's financial position or results of operations.

14. Commitments

The Company has until December 31, 2014 to incur $4.5 million of qualifying CEE flow-through expenditures related to CEE flow-through shares issued in December 2013.

The Company has entered into lease agreements for office premises, field equipment and Company vehicles with estimated minimum annual payments as follows:

2014	$	60,319
2015	$	241,277
2016	$	241,277
